4. Notes the decision of the Meeting of the States Parties to the Convention held on 12 and 13 December 2002 in that the Working Group on Explosive Remnants of War would continue its work in the year 2003 with the mandate to negotiate an instrument on post-conflict remedial measures of a generic nature that would reduce the risks of explosive remnants of war and to explore and determine whether these negotiations could successfully address preventive generic measures for improving the reliability of munitions and, separate from these negotiations, to continue to consider the implementation of existing principles of international humanitarian law and to further study, on an open-ended basis, possible preventive measures aimed at improving the design of certain specific types of munitions, including submunitions, with a view to minimizing the humanitarian risk of these munitions becoming explosive remnants of war.²

5. *Also notes* the decision of the Meeting of the States Parties to the Convention that the Working Group on Mines Other Than Anti-Personnel Mines would continue its work in the year 2003 with the mandate to explore the issue of mines other than anti-personnel mines, and consider the most appropriate way to reduce the risks posed by the irresponsible use of mines other than anti-personnel mines, including the possibility of concluding a negotiating mandate for a new instrument and other appropriate measures, taking into account the issues specified in the decisions.³

6. *Further notes* the decision of the Meeting of the States Parties to the Convention that the Chairman-designate should continue to undertake consultations during thePathVariable period on possible options to promote compliance with the Convention and its annexed Protocols, taking into account proposals put forward.⁴

7. *Expresses support* for the work conducted by the Group of Governmental Experts and encourages the Chairman-designate and the Group to conduct work expeditiously, with a view to submitting a possible proposal for an instrument on explosive remnants of war to States parties for consideration at their meeting on 27 and 28 November 2003 and with a view to submitting to the States parties reports on mines other than anti-personnel mines and on compliance.
