Mr Chairman,

I would like to deliver the following explanation of vote on behalf of the United Kingdom and France who have joined consensus on draft resolution L14: “Observance of environmental norms in the drafting and implementation of agreements on disarmament and arms control”.

Mr Chairman, we wish to make clear that the United Kingdom and France operate under stringent domestic environmental impact regulations for many activities, including the implementation of arms control and disarmament agreements. We see no direct connection, as stated in this resolution, between general environmental standards and multilateral arms control.

Thank you Mr Chairman.
