L 39/Rev 1: Resolution on Women, Disarmament, Arms Control and Non-Proliferation

My delegation commends the lead sponsor - Trinidad and Tobago for tabling this resolution which brings focus on an important dimension of global disarmament, arms control and non-proliferation efforts, namely the recognition that the participation of both men and women is essential for the attainment of sustainable peace and security. The greater involvement of women in the field of disarmament, non-proliferation and arms control should be supported and strengthened. Therefore, India has extended its full support for this resolution.
