Preventing and combating illicit brokering activities

The General Assembly,

Noting the threat to international peace and security posed by illicit brokering activities circumventing the international arms control and non-proliferation framework,

Concerned that, if proper measures are not taken, the illicit brokering of arms in all its aspects will adversely affect the maintenance of international peace and security, and prolong conflicts, and could be an obstacle to sustainable economic and social development and result in illicit transfers of conventional arms and the acquisition of weapons of mass destruction by non-State actors,

Recognizing the need for Member States to prevent and combat illicit brokering activities, which cover not only conventional arms but also materials, equipment and technology that could contribute to the proliferation of weapons of mass destruction and their means of delivery,

Reaffirming that efforts to prevent and combat illicit brokering activities should not hamper the legitimate arms trade and international cooperation with respect to materials, equipment and technology for peaceful purposes,

Recalling Security Council resolution 1540 (2004) of 28 April 2004, in particular paragraph 3, which determined that all States shall develop and maintain appropriate effective border controls and law enforcement efforts to detect, deter, prevent and combat, including through international cooperation when necessary,
illicit trafficking and brokering in accordance with their national legal authorities and legislation and consistent with international law,

Recalling also resolution 63/67 of 2 December 2008,

Noting the report of the Group of Governmental Experts established pursuant to resolution 60/81 of 8 December 2005 to consider further steps to enhance international cooperation in preventing, combating and eradicating illicit brokering in small arms and light weapons³ as an international initiative within the framework of the United Nations,

Underlining the inherent right of Member States to determine the specific scope and content of domestic regulations in accordance with their legislative frameworks and export control systems, consistent with international law,

Welcoming the efforts made by Member States to implement laws and/or administrative measures to regulate arms brokering within their legal systems,

Encouraging cooperation among Member States to prevent and combat illicit trafficking in nuclear materials and recognizing, in this regard, existing efforts at all levels, consistent with international law,

Encouraging Member States in a position to do so to share their experience and practices in relation to control of illicit brokering and to further enhance international cooperation to this end,

Noting with satisfaction the activities of the United Nations Institute for Disarmament Research in relation to preventing and combating illicit brokering activities,
