Mr. Chairman, I take the floor to explain the vote of the Netherlands on OP 14 of draft resolution L.49.

The Netherlands is fully committed to the full implementation of the action plan agreed by the NPT RevCon in 2010. This plan contains actions on all three pillars of the NPT: disarmament, non-proliferation and peaceful use. For us especially non-proliferation and disarmament are two facets of the same diamond. Both are equally important and reinforce each other. Therefore it is important to work for the full implementation of all elements of the action plan.
