Aware of the potential hazards underlying any use of radioactive wastes that would constitute radiological warfare and its implications for regional and international security, in particular for the security of developing countries,

Recalling all its resolutions on the matter since its forty-third session in 1988, including its resolution 51/45 J of 10 December 1996,

Recalling also resolution GC(45)/RES/10 adopted by consensus on 21 September 2001 by the General Conference of the International Atomic Energy Agency at its forty-fifth regular session, in which States shipping radioactive materials are invited to provide, as appropriate, assurances to concerned States, upon their request, that the national regulations of the shipping State take into account the Agency’s transport regulations and to provide them with relevant information relating to the shipment of such materials; the information provided should in no case be contradictory to the measures of physical security and safety,

Welcoming the adoption at Vienna, on 5 September 1997, of the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management, as recommended by the participants in the Summit on Nuclear Safety and Security,

Welcoming also the convening by the International Atomic Energy Agency of the Ministerial Conference on Nuclear Safety, held in Vienna from 20 to 24 June 2011, and its outcome, the ministerial declaration, as well as the Action Plan on Nuclear Safety endorsed by the General Conference of the Agency at its fifty-fifth regular session, and the convening by the Secretary-General of the High-level Meeting on Nuclear Safety and Security in New York on 22 September 2011,

Noting with satisfaction that the Joint Convention entered into force on 18 June 2001,

4. Calls upon all States to take appropriate measures with a view to preventing any dumping of nuclear or radioactive wastes that would infringe upon the sovereignty of States;

5. Requests the Conference on Disarmament to take into account, in the negotiations for a convention on the prohibition of radiological weapons, radioactive wastes as part of the scope of such a convention;

6. Also requests the Conference on Disarmament to intensify efforts towards an early conclusion of such a convention and to include in its report to the General Assembly at its sixty-eighth session the progress recorded in the negotiations on this subject;

8. Expresses the hope that the effective implementation of the International Atomic Energy Agency Code of Practice on the International Transboundary Movement of Radioactive Waste will enhance the protection of all States from the dumping of radioactive wastes on their territories;

9. Appeals to all Member States that have not yet taken the necessary steps to become party to the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management to do so as soon as possible;
