Explanation of Vote by Delegation of the Islamic Republic of Iran
on draft resolution entitled "Regional confidence building measures activities
of the UN standing advisory committee on security questions in Central Africa"
at the First Committee of the 70th Session of the General Assembly
New York, 6 November 2015

In the Name of God, the Most Compassionate, the Most Merciful

My delegation would like to put on record that it disassociates itself from consensus on PP 5 of
the draft resolution L.43/Rev.2 entitled "Regional confidence building measures activities of the
UN standing advisory committee on security questions in Central Africa" because of the same
reason enumerated in our explanation of vote on draft resolution L.54 entitled "Arms Trade
Treaty".

I thank you Mr. Chairman.
