I. INTRODUCTION

1. Paragraph 120 of the Final Document 1/ of the first special session of the General Assembly devoted to disarmament stated the following:

"The General Assembly is conscious of the work that has been done by the international negotiating body that has been meeting since 14 March 1972 as well as the considerable and urgent work that remains to be accomplished in the field of disarmament. The Assembly is deeply aware of the continuing requirement for a single multilateral disarmament negotiating forum of limited size taking decisions on the basis of consensus. It attaches great importance to the participation of all the nuclear-weapon States in an appropriately constituted negotiating body, the Committee on Disarmament. The Assembly welcomes the agreement reached following appropriate consultations among the Member States during the special session of the General Assembly devoted to disarmament that the Committee on Disarmament will be open to the nuclear-weapon States, and 32 to 35 other States to be chosen in consultation with the President of the thirty-second session of the Assembly; that the membership of the Committee on Disarmament will be reviewed at regular intervals; that the Committee on Disarmament will be convened in Geneva not later than January 1979 by the country whose name appears first in the alphabetical list of membership; and that the Committee on Disarmament will:

(e) Adopt its own agenda taking into account the recommendations made to it by the General Assembly and the proposals presented by the members of the Committee;

account when the exchange of seismic data was implemented in practice. At its 46th meeting, held on 7 August 1979, the Committee approved the report of the Ad Hoc Group and decided to continue its mandate, as well as to invite the World Meteorological Organization to continue to participate in the work of the Group.

40. The highest priority of the question of a nuclear test ban and the importance of the Committee's role in elaborating a treaty were generally stressed. To that end, the Committee will continue its work at its 1980 session. The Committee urged the participants in the tripartite negotiations to make every effort to bring the negotiations to an early and successful conclusion and to transmit the results to the Committee on Disarmament for its consideration.

**B. Cessation of the nuclear arms race and nuclear disarmament**

41. The item of the agenda entitled "Cessation of the nuclear arms race and nuclear disarmament" was considered by the Committee, in accordance with its programme of work, from 19 to 23 April and from 2 to 6 July 1979. In addition to its plenary meetings, the Committee held six informal meetings on the subject during and after the period allocated for the consideration of the item.

42. In connexion with the item, the following documents were before the Committee:

(a) Document CD/4, dated 1 February 1979, submitted by the delegations of Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Mongolia, Poland, and the Union of Soviet Socialist Republics, concerning negotiations on ending the production of all types of nuclear weapons and gradually reducing their stockpiles until they have been completely destroyed. Romania joined the co-sponsors of this document;

(b) Document CD/36/Rev.1, dated 12 July 1979, submitted by the Group of 21, containing a working paper on the cessation of the nuclear arms race and nuclear disarmament.

43. The discussions on this item helped clarify the various approaches to the question of nuclear disarmament. Two documents containing proposals and suggestions were submitted to the Committee (CD/4 and CD/36/Rev.1). These documents contributed to an exploration of the possibility of effective negotiations in that respect. The co-sponsors of the submitted documents and other members of the Committee on Disarmament exchanged views on a number of specific questions in an effort to identify the prerequisites and elements for multilateral negotiations on nuclear disarmament and to delineate the course of action for the achievement of this objective. The documents relating to the SALT II Agreement were presented to the Committee (CD/28 and CD/29). The hope was expressed that these agreements would speedily enter into force so that the negotiating process might be resumed soon with a view to bringing about further meaningful and substantial results. While the exchanges of views on this item were most useful, they would need to be continued and intensified during the next session of the Committee in order that an agreed basis for progress might be found. The special responsibility of nuclear-weapon States was recognized as essential for attaining the goal of nuclear disarmament.

3/ Algeria, Argentina, Brazil, Burma, Cuba, Egypt, Ethiopia, India, Indonesia, Iran, Kenya, Mexico, Morocco, Nigeria, Pakistan, Peru, Sri Lanka, Sweden, Venezuela, Yugoslavia and Zaire.
C. Effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons

44. The item of the agenda entitled "Effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons" was considered by the Committee, in accordance with its programme of work, from 25 to 26 June 1979.

45. In connexion with the item, the following documents were before the Committee:

(a) Document CD/10, dated 27 March 1979, submitted by the delegation of Pakistan, concerning the conclusion of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons.

(b) Document CD/23, dated 21 June 1979, submitted by the delegations of Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Mongolia, Poland and the Union of Soviet Socialist Republics, containing a working paper on a draft international convention on the strengthening of guarantees of the security of non-nuclear States.

(c) Document CD/25, dated 26 June 1979, submitted by the delegation of Pakistan, containing a working paper on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons.

(d) Document CD/27, dated 2 July 1979, submitted by the delegation of the United States of America, containing a proposal for a recommendation by the Committee on Disarmament to the United Nations General Assembly concerning the security of non-nuclear-weapon States against nuclear attack.

46. At its 39th plenary meeting, on 5 July 1979, the Committee decided to establish, for the duration of its 1979 session, an ad hoc Working Group open to all member States of the Committee, to consider and negotiate on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons. The Committee further decided that the ad hoc Working Group would present a report to the Committee before the conclusion of the 1979 session.

47. The Committee also decided, in accordance with rule 32 of the rules of procedure, that representatives of non-member States should have reserved seats in the conference room during the meetings of the ad hoc Working Group. After that decision was taken the Chairman noted that, in adopting the decision under rule 32 of the rules of procedure, it was the understanding of the Committee that it would not constitute a precedent and that in the future each case would be decided on its merits.

48. At its 41st plenary meeting, on 12 July 1979, the Committee also decided to nominate the representative of Egypt as Chairman of the ad hoc Working Group. The ad hoc Working Group held seven meetings between 13 July and 2 August and also conducted informal consultations during that period. As a result of its deliberations, the ad hoc Working Group submitted a report to the Committee (CD/47).

49. The Committee noted that there was wide recognition of the urgent need to reach agreement on effective international arrangements to assure non-nuclear-weapon States...
against the use or threat of use of nuclear weapons. In that connexion the question
of an international convention was widely discussed. There was no objection, in
principle, to the idea of an international convention; however, the difficulties
involved were also pointed out. There was also discussion on the question of a
General Assembly resolution, as well as reference to a Security Council resolution
and to declarations to be deposited with the Secretary-General of the United Nations
as an interim arrangement.

50. The Committee approved the recommendation of the ad hoc working Group that at
the beginning of its 1980 session the Committee on Disarmament should continue
negotiations on effective international arrangements to assure non-nuclear-weapon
States against the use or threat of use of nuclear weapons.

51. At its 40th meeting, on 7 August 1979, the Committee approved the report of the
ad hoc working Group which is an integral part of the report of the Committee
(appendix II).

D. Chemical weapons

52. The agenda item entitled "Chemical weapons" was considered by the Committee, in
accordance with its programme of work, from 24 to 27 April and from 16 to

53. In connexion with the item, the following documents were before the Committee.

(a) Document CD/5, dated 6 February 1979, submitted by the delegation of
Italy, containing a working paper on chemical disarmament negotiations;

(b) Document CD/6, dated 6 February 1979, submitted by the delegation of the
Netherlands, concerning some procedural suggestions with respect to the development
of a ban on chemical weapons;

(c) Document CD/11, dated 9 April 1979, submitted by the Group of 21,
containing a working paper on negotiations on the prohibition of the development,
production and stockpiling of chemical weapons and on their destruction;

(d) Document CD/11, dated 25 April 1979, submitted by Finland, containing a
working document entitled "Chemical identification of chemical weapons agents - a
Finnish project";

(e) Document CD/15, dated 24 April 1979, submitted by the delegation of the
United Kingdom, on a visit to Britain by chemical weapons experts from 14 to
16 March 1979.

(f) Document CD/21, dated 20 June 1979, submitted by the delegation of
Poland, containing a working paper on the prohibition of the development,
production and stockpiling of all chemical weapons and on their destruction.

(g) Document CD/26, dated 1 July 1979, submitted by the Secretariat in
compliance with the decision of the Committee at its 31st plenary meeting,
containing a compilation of material on chemical weapons from the Conference of the
Committee on Disarmament and the Committee on Disarmament working papers and
statements, 1972-1979;
(h) Document CD/37, dated 12 July 1979, submitted by the delegation of the Federal Republic of Germany, entitled "Working paper on some aspects of international verification of non-production of chemical weapons: experience gained in the Federal Republic of Germany";

(j) Document CD/41, dated 25 July 1979, submitted by the delegation of the Netherlands, entitled "A working paper containing questions relevant to a convention prohibiting chemical weapons";

(l) Document CD/44, dated 26 July 1979, submitted by the delegation of Poland, containing a working paper on an outline of a convention on the prohibition of the development, production and stockpiling of chemical weapons and on their destruction;

(n) Document CD/49, dated 8 August 1979, submitted by the delegation of the Netherlands, entitled "Chemical Weapons - answers to questionnaire contained in document CD/41".

(n) Document CD/52, dated 13 August 1979, submitted by the delegations of France, Italy and the Netherlands, entitled "Chemical weapons: evaluation of the discussion in the Committee on Disarmament in 1979 with respect to a prohibition of chemical weapons."

54. The urgency and importance of negotiating an international convention prohibiting the development, production and stockpiling of chemical weapons and on their destruction was stressed by all members of the Committee. In documents CD/5, CD/6, CD/11 and CD/21, several procedural suggestions were made to the Committee for making progress towards this objective. However, it was not possible to reach agreement on the methods and procedures for dealing with the question of chemical weapons, in particular the setting up of an ad hoc working group for this purpose. A useful exchange of views took place between delegations, with the participation of experts, and answers to specific questions, especially as regards the basic elements of a future convention, were provided. As a result, different aspects of the problem of the prohibition of chemical weapons have been further clarified. The Committee noted with satisfaction the substantial joint statement that the delegations of the USSR and the United States of America made on 31 July 1979 on their bilateral negotiations with respect to an intended joint initiative on chemical weapons (CD/48). The Committee also noted that the USSR and the United States of America would exert their best efforts to complete the negotiations and present a joint initiative on this question to the Committee as soon as possible. The Committee, taking into account the fact that the prohibition of chemical weapons is one of the most urgent and vital problems in the area of disarmament, will proceed with negotiations at its 1980 session.
E. New types of weapons of mass destruction and new systems of such weapons; radiological weapons

55. The item on the agenda entitled "New types of weapons of mass destruction and new systems of such weapons; radiological weapons" was considered by the Committee, in accordance with its programme of work, from 10 to 13 July 1979.

56. In connexion with the item, the following documents were before the Committee:

(a) Documents CD/31 and CD/32, dated 9 July 1979, submitted respectively by the delegations of the Union of Soviet Socialist Republics and the United States of America, transmitting a document entitled "Agreed joint USSR-United States proposal on major elements of a treaty prohibiting the development, production, stockpiling and use of radiological weapons";

(b) Document CD/35, dated 10 July 1979, submitted by the delegation of the Union of Soviet Socialist Republics, on the negotiations on the question of the prohibition of new types of weapons of mass destruction and new systems of such weapons;

(c) Document CD/40, dated 23 July 1979, submitted by the delegation of Hungary, containing a working paper on the draft preambular part of the Treaty on the Prohibition of the Development, Manufacture, Stockpiling and Use of Radiological Weapons;

(d) Document CD/42, dated 25 July 1979, submitted by the delegation of the German Democratic Republic, containing a working paper on article XI, paragraph 3, and article XII, paragraph 3, of the Treaty on the Prohibition of the Development, Manufacture, Stockpiling and Use of Radiological Weapons.

57. The Committee noted with satisfaction the submission by the USSR and the United States of America of an agreed joint proposal on major elements of a treaty prohibiting the development, production, stockpiling and use of radiological weapons (CD/31 and CD/32). The sponsors of the proposal made a detailed presentation and provided additional clarifications and explanations, with the assistance of experts. Draft formulations for the preambular part as well as for certain operative paragraphs were submitted to the Committee by some members (CD/40 and CD/42). Following a preliminary discussion, the Committee concluded that it would continue consideration of the agreed joint proposal as soon as possible at its next annual session. The Committee also considered the general question of new types of weapons of mass destruction and new systems of such weapons. Experts from some countries provided additional information. The Committee will give further examination to this problem next year.

F. Consideration of other areas dealing with the cessation of the arms race and disarmament and other relevant measures

58. During its 1979 session, the Committee had before it other documents which, although not considered under the items of the agenda, dealt with the cessation of the arms race and disarmament and other relevant measures in other areas. In accordance with the understanding announced by the Chairman of the Committee at the 26th plenary meeting that heading IX of document CD/12 included, inter alia, questions dealing with further measures in the field of disarmament to prevent an arms race on the sea-bed and the ocean floor and in the subsoil thereof, as well
as further measures to prevent an arms race in outer space, the following documents were before the Committee:

(a) Document CD/9, dated 26 March 1979, submitted by the delegation of Italy, on an additional protocol to the 1967 Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies, with a view to preventing an arms race in outer space;

(b) Document CD/13, dated 20 April 1979, submitted by the delegation of Poland, containing a working paper on further measures in the field of disarmament for the prevention of an arms race on the sea-bed and the ocean floor.

G. Consideration and adoption of the annual report and any other report as appropriate to the General Assembly of the United Nations

59. During the consideration and adoption of this report to the General Assembly of the United Nations, the following documents were tabled for inclusion in the record:

(a) Document CD/50, dated 9 August 1979, submitted by the Group of 21, entitled "Statement by the Group of 21 on the conclusion of the annual session of the Committee on Disarmament in 1979";

(b) Document CD/51, dated 10 August 1979, submitted by a group of socialist States ¼ and entitled "Results of the 1979 session of the Committee on Disarmament".

8. The Chairman of the Committee, in full consultation with and with the agreement of all its members, may convene the Committee in special session.
IV. Chairmanship

9. When the Committee is in session, the Chairmanship of the Committee shall rotate among all its members on the first day of the calendar month, a rotation which began in January 1979 following the English alphabetical list of membership.

10. If the head of the delegation which performs the function of Chairman cannot be present, he may be replaced by a member of his delegation. If no member of the delegation holding the Chair is able to perform the function of Chairman the delegation next in order of rotation shall temporarily assume this function.

11. Apart from exercising the normal functions of a presiding officer and in addition to the powers conferred upon him elsewhere by these rules, the Chairman shall, in full consultation with the Committee and under its authority, represent it in its relations with States, with the General Assembly and other organs of the United Nations and with other international organizations.

In the event that it is decided to hold a private meeting, the Committee shall also decide whether to issue a communiqué of the meeting. The communiqué shall adequately reflect the substance of the proceedings and decisions taken by the Committee.

21. If the Committee is unable to take a decision on the substance of an item under negotiation, it will consider the subsequent examination of that item.

22. The Committee may hold informal meetings, with or without experts, to consider as appropriate substantive matters as well as questions concerning its organization of work. When requested by the Committee, the Secretariat shall provide unofficial summaries of those meetings in the working languages.

23. The Committee shall define the mandate for each of such subsidiary bodies and provide appropriate support for their work.

24. The Committee shall decide if its own rules of procedure may be adapted to the specific requirements of its subsidiary bodies. The meetings of the subsidiary bodies shall be informal unless the Committee decides otherwise. The Secretariat shall provide assistance to the subsidiary bodies, as requested, including the preparation of unofficial summaries of the subsidiary bodies' proceedings in the working languages of the Committee.

25. The approval by consensus of reports shall not be interpreted as affecting in any manner the essential requirement that such reports must reflect faithfully the positions of all the members of the respective organs.

VIII. Agenda and programme of work

27. At the beginning of each annual session the Committee shall adopt its agenda for the year. In doing so, the Committee shall take into account the recommendations made to it by the General Assembly, the proposals presented by member States of the Committee and the decisions of the Committee.

28. On the basis of its agenda the Committee, at the beginning of each part of its annual session, shall establish its programme of work, which will include a schedule

request, to express views in the Committee when the particular concerns of those
States are under discussion. Having considered such a request, the Committee
will, through its Chairman, transmit an invitation to that effect to the State or
States concerned.

35. The Committee may also decide to invite the States referred to in rules 33 and
34 to participate in informal meetings and in meetings of its subsidiary bodies,
in which case the procedure of rule 33 is applicable.

Appendix II

AD HOC WORKING GROUP TO CONSIDER, AND NEGOTIATE ON, EFFECTIVE INTERNATIONAL ARRANGEMENTS TO ASSURE NON-NUCLEAR-WEAPON STATES AGAINST THE USE OR THREAT OF USE OF NUCLEAR WEAPONS

Report to the Committee on Disarmament

1. In the course of consideration of item 3 of its 1979 agenda, entitled "Effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons", the Committee, at its 39th meeting, held on 5 July 1979, adopted the following decision:

"The Committee on Disarmament decides to establish, for the duration of its present session, an ad hoc working group open to all member States of the Committee to consider, and negotiate on, effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons. The ad hoc working group will present a report to the Committee on Disarmament before the conclusion of the 1979 session. The Committee further decides, in accordance with rule 32 of the rules of procedure, that representatives of non-member States shall have reserved seats in the conference room during the meetings of the ad hoc working group."

2. At the 41st meeting, on 12 July, the Committee elected the delegation of Egypt as Chairman of the ad hoc working group.

3. The Group held seven meetings between 13 July and 2 August and also conducted informal consultations during that period.

4. In carrying out its mandate, the ad hoc working group took into account paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly, devoted to disarmament, in which "... the nuclear-weapon States are called upon to take steps to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons. The General Assembly notes the declarations made by the nuclear-weapon States and urges them to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons."

5. The ad hoc working group also took note of the letter of the Secretary-General contained in document CD/1, transmitting resolutions adopted by the General Assembly at its thirty-third regular session, and took note in particular of resolution 33/72 A and B. Paragraphs 1 and 2 of resolution 33/72 A read as follows:

"1. Considers it necessary to take effective measures for the strengthening of the security of non-nuclear-weapon States through appropriate international arrangements;"
"2. Requests the Committee on Disarmament to consider, to that end, at the earliest possible date, the drafts of an international convention on the subject, submitted to the General Assembly at its thirty-third session, as well as all proposals and suggestions concerning effective political and legal measures at the international level to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons."

Paragraphs 1 and 2 of resolution 33/72 B read as follows:

"1. Urges that urgent efforts should be made to conclude effective arrangements, as appropriate, to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, including consideration of an international convention and of alternative ways and means of achieving this objective;

"2. Takes note of the proposals submitted and views expressed on this subject at its thirty-third session and recommends that the Committee on Disarmament should consider them and submit a progress report to the General Assembly at its thirty-fourth session."

6. In the conduct of its work the Working Group had before it the following four working papers which were introduced by their sponsors:

(a) A working paper by Pakistan, entitled "Conclusion of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons" (CD/10);

(b) A working paper by Bulgaria, Czechoslovakia, German Democratic Republic, Hungary, Mongolia, Poland and the Union of Soviet Socialist Republics, entitled "Draft international convention on the strengthening of guarantees of the security of non-nuclear States" (CD/23);

(c) A working paper by Pakistan, entitled "Effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons" (CD/25);

(d) A working paper by the United States of America, entitled "Proposal for a CD recommendation to the United Nations General Assembly concerning the security of non-nuclear-weapon States against nuclear attack" (CD/27).

7. Furthermore, the Secretariat, at the request of the ad hoc Working Group, prepared a compilation of material suggested by members of the Group. The compilation was prepared on the understanding that it would be background material and that the material included therein would not prejudice the position of members of the Group on matters of substance.

8. From the outset there was an understanding that the work of the Group should be a step-by-step process, the first step being to identify the elements to be considered and negotiated on, the second to negotiate on those elements, and the third to reach agreement through consensus on effective international arrangements.
9. Extensive discussion took place on the elements to be considered and negotiated on. In this connexion, discussions were held on the relationship of the non-use of nuclear weapons, nuclear disarmament, the non-use of force in international relations, as well as the over-all question of strengthening of international peace and security, to the mandate of the group. There was broad agreement that these elements can be divided into two general categories:

A. Scope and nature of the arrangements, and

B. Form of the arrangements, their number and binding character.

10. There was agreement that the arrangements had to be effective and international in character. The question of rationale, scope and nature of the arrangements was discussed at length. There was also discussion on the question of the definition of nuclear and non-nuclear-weapon States, the criteria to be applied in such definition and the prerequisites for the extension of the arrangements. In that respect a number of ideas were submitted, such as the extension of arrangements to all non-nuclear-weapon States without any condition or limitations; to all non-nuclear-weapon States which are not parties to the nuclear security arrangements of some nuclear Powers; to non-nuclear-weapon States parties to the non-proliferation Treaty or any other comparable internationally binding commitment not to acquire nuclear explosive devices (such as the Treaty of Tlatelolco), except in the case of an attack by such a State allied to a nuclear-weapon State or associated with a nuclear-weapon State in carrying out or sustaining the attack; to non-nuclear-weapon States which renounced the production and acquisition of nuclear weapons and which have no nuclear weapons on their territories or under their jurisdiction or control. Different related questions were raised and comments were made on these issues. Discussion also took place on the question of the arrangements in relation to the non-nuclear-weapon States parties to military alliances. Similarly the question of the nature of the arrangements in relation to nuclear disarmament, the non-use of nuclear weapons, as well as the non-use of force in international relations was raised. In that context the idea was discussed that, pending nuclear disarmament, a general ban on the use or the threat of use of nuclear weapons and the non-use of force in international relations would be the most effective guarantee for the security of non-nuclear-weapon States. The point was also raised that a general ban on the use of nuclear weapons can only be considered in the context of nuclear disarmament.

11. As regards the form, number and binding character of the arrangements, there was recognition that the search should continue for a common approach acceptable to all which could be included in an international instrument of a legally binding character. In that connexion the question of an international convention was widely discussed. There was no objection, in principle, to the idea of an international convention; however, the difficulties involved were also pointed out. There was also discussion on the question of a General Assembly resolution as well as reference to a Security Council resolution and declarations to be deposited with the Secretary-General of the United Nations as an interim arrangement.

Conclusion

12. There was wide recognition of the urgent need to reach agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons. The ad hoc Working Group was able, in the short
time available to it, to begin meaningful consideration of, and negotiate on, some of the elements which fell within its mandate. Preliminary exploration of areas of agreement and disagreement clarified issues and at the same time underlined the complexity of the elements which have to be further considered and negotiated on.

13. The ad hoc Working Group recommends that at the beginning of its 1980 session the Committee on Disarmament should continue negotiations on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons.
