Vienna, 30 April-11 May 2007

Nuclear testing

Working paper presented by the members of the Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons

1. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons welcomes the signature of the Comprehensive Nuclear-Test-Ban Treaty by 177 States and its ratification by 138 States. The Group, in accordance with its long-standing and principled position in favour of the total elimination of all forms of nuclear weapons, supports the objectives of the Treaty, which is intended to enforce a comprehensive ban on all nuclear test explosions, and to stop the qualitative development of nuclear weapons that would pave the way towards the total elimination of nuclear weapons.

2. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons stresses that the significance of achieving universal adherence to the Comprehensive Nuclear-Test-Ban Treaty, including by the five nuclear-weapon States, would inter alia, contribute towards the process of nuclear disarmament and therefore towards the enhancement of international peace and security. The Group also believes that if the objectives of the Comprehensive Nuclear-Test-Ban Treaty were to be fully realized, the continued commitment of all States signatories, especially the five nuclear-weapon States, to nuclear disarmament, would be essential.

3. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons believes that the five nuclear-weapon States have a special responsibility to ensure the entry into force of the Comprehensive Nuclear-Test-Ban Treaty, not only because they are among the 44 States listed in Annex 2 to the Treaty, but also because, on account of their position, they are expected to lead in making the ban on tests a reality. It will be possible to determine the success of the Comprehensive Nuclear-Test-Ban Treaty only when it has been signed and ratified by the five nuclear-weapon States and the remaining countries in Annex 2.
4. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons reaffirms that one of the most significant factors in facilitating the entry into force of the CTBT is the ratification of the treaty by the nuclear-weapon States, as they bear a special responsibility in this regard. Positive decisions by the nuclear-weapon States would have the desired impact on progress towards entry into force of the Comprehensive Nuclear-Test-Ban Treaty. Early ratification by nuclear-weapon States would pave the way and encourage the remaining countries listed in Annex 2 to the Comprehensive Nuclear-Test-Ban Treaty, especially the three States with unsafeguarded nuclear facilities, to sign and ratify the Treaty. The failure of one major nuclear-weapon State to ratify the Treaty, and by not supporting the preparatory commission of the CTBTO through rejection of one of the main elements of the Treaty’s verification regime, is undermining this important instrument against nuclear testing.

5. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons recalls the undertaking by the nuclear-weapon States at the time of negotiation of the Comprehensive Nuclear-Test-Ban Treaty to ensure that the Treaty would halt both vertical and horizontal proliferation, thereby preventing the appearance of new types of nuclear devices, as well as nuclear weapons based on new physical principles. The nuclear-weapon States stated at that time that the only steps to be followed would be to maintain the safety and reliability of the remaining or existing weapons, which would not involve nuclear explosions. In that regard, the Group calls upon those States to continue to refrain from conducting nuclear test explosions for the development or further improvement of nuclear weapons. The Group wishes to re-emphasize the principles of the non-proliferation regime, both vertically and horizontally.

6. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons underscores the importance of the five nuclear-weapon States maintaining their voluntary moratoriums on nuclear weapon test explosions since the opening for signature of the Comprehensive Nuclear-Test-Ban Treaty. However, the Group believes that moratoriums do not take the place of the signing, ratification and entry into force of the latter.

7. The Group of Non-Aligned States parties to the Treaty on the Non-Proliferation of Nuclear Weapons emphasizes that the development of new types of nuclear weapons is contrary to the guarantee given by the five nuclear-weapon States at the time of the conclusion of the Comprehensive Nuclear-Test-Ban Treaty, namely, that the Treaty would prevent the improvement of existing nuclear weapons and the development of new types of nuclear weapons. Pending the entry into force of the Treaty, States should refrain from any actions contrary to its objectives and purpose. In this context, the Group is seriously concerned by the decision by a nuclear-weapon State to reduce the time necessary to resume nuclear testing to 18 months as a setback to the 2000 Review Conference agreements. The lack of progress in the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty also remains a cause for concern.
