About the authors

Ray Acheson is the Director of Reaching Critical Will. She monitors and analyzes many international processes related to disarmament and arms control. Ray is the editor of RCW’s reports and analyses of UN meetings and of several collaborative civil society publications. She is currently on the International Steering Group of the International Campaign to Abolish Nuclear Weapons (ICAN) and the Board of Directors of the Los Alamos Study Group.

John Ainslie is coordinator of the Scottish Campaign for Nuclear Disarmament. In addition to supporting the anti-nuclear weapons movement in Scotland he has carried out research into the history of the British nuclear weapons programme, the Polaris and Trident systems, and defence nuclear safety issues over the past 20 years.

Merav Datan is an international lawyer and a former adjunct professor at Rutgers Law School. She is a board member of the Lawyers Committee on Nuclear Policy and former director of the Women’s International League for Peace and Freedom’s UN Office in New York. She has also worked as a consultant for the United Nations Department for Disarmament Affairs (WMD Branch) and as Middle East Political Advisor for Greenpeace International.

Mia Gandenberger is an Associate with Reaching Critical Will. Prior to this position, she was a visiting Disarmament Fellow with the Los Alamos Study Group and has worked as a part-time researcher for RCW. She is a co-founder of NPT-TV, a project of the International Law Campaign, which aimed to bring reports on nuclear disarmament diplomacy to a larger audience.

Hans M. Kristensen is Director of the Nuclear Information Project at the Federation of American Scientists in Washington, D.C., where he researches and writes about the status and operations of nuclear forces of the nine nuclear weapon states. He is a frequent advisor to the news media on the status of nuclear forces and policy. Kristensen is co-author of the bi-monthly Nuclear Notebook column in the Bulletin of the Atomic Scientists and the World Nuclear Forces overview in the SIPRI Yearbook. Prior to his current position, Kristensen was a consultant to the Nuclear Program at the Natural Resources Defense Council in Washington, DC and Program Officer at the Nautilus Institute in Berkeley, CA.

Andrew Lichterman is a lawyer and policy analyst for Western States Legal Foundation. He has represented peace and environmental activists in settings ranging from arrests in mass direct actions to environmental challenges to military projects, and also has written extensively about disarmament and disarmament movements in the San Francisco Bay area. As a lawyer, he has represented peace and environmental activists in a variety of settings, and also taught law at alternative law schools for many years.

Greg Mello is the Executive Director and co-founder of the Los Alamos Study Group, where he works on policy research, environmental analysis, congressional education and lobbying, community organizing, litigation, and advertising. Greg led the first environmental enforcement at Los Alamos National Laboratory. He was a hydrogeologist for the New Mexico Environment Department and later a consultant to industry. In 2002 Greg was a Visiting Research Fellow at Princeton’s Program on Science and Global Security. Greg’s research, analysis, and opinions have been published in the New York Times, Washington Post, the Bulletin of the Atomic Scientists, Issues in Science and Technology, in the New Mexico press, and elsewhere.

Zia Mian directs the Project on Peace and Security in South Asia at Princeton University’s Program on Science and Global Security and teaches at Princeton’s Woodrow Wilson School of Public and International Affairs. His research and teaching focus on nuclear weapons and nuclear energy policy, especially in Pakistan and India. He is co-editor of Science & Global Security, the international technical journal of arms control, nonproliferation, and disarmament and co-deputy chair of the International Panel on Fissile Materials (IPFM). He is the editor of several books, most recently Bridging Partition: People’s Initiative for Peace between India and Pakistan, and has also worked on two documentary films for the Eqbal Ahmad Foundation, Crossing the Lines: Kashmir, Pakistan, India and Pakistan and India under the Nuclear Shadow. In addition to his research and writing, he is active with a number of civil society groups working for nuclear disarmament, peace, and justice.

Pavel Podvig is an independent analyst based in Geneva, where he runs his research project, “Russian Nuclear Forces”. He is also a Senior Research Fellow at the United Nations Institute for Disarmament Research and a member of the International Panel on Fissile Materials. Pavel started his work on arms control at the Center for Arms Control Studies at the Moscow Institute of Physics and Technology. In recognition of his work in Russia, the American Physical Society awarded Podvig the Leo Szilard Lectureship Award of 2008 (with Anatoli Diakov). Podvig worked with the Program on Science and Global Security at Princeton University, the Security Studies Program at MIT, and the Center for...
M. V. Ramana, a physicist by training, is currently appointed jointly with the Nuclear Futures Laboratory and the Program on Science and Global Security, both at Princeton University, and works on the future of nuclear energy in the context of climate change and nuclear disarmament. He is the author of *The Power of Promise: Examining Nuclear Energy in India* and *Bombing Bombay? Effects of Nuclear Weapons and a Case Study of a Hypothetical Explosion*. He is co-editor of *Prisoners of the Nuclear Dream*. He is on the National Coordinating Committee of the Coalition for Nuclear Disarmament and Peace (India), a member of the International Panel on Fissile Materials, and on the Science and Security Board of the Bulletin of the Atomic Scientists.

Susi Snyder is the Nuclear Disarmament Programme Leader for PAX in the Netherlands. Previously, Susi served as the Secretary General of the Women’s International League for Peace and Freedom, based at their International Secretariat in Geneva, Switzerland where she monitored various issues under the aegis of the United Nations, including sustainable development, human rights, and disarmament. Mrs. Snyder has presented papers and testimony at countless international conferences and at more than 40 US governmental hearings regarding nuclear weapons, power, and waste, including presentations to the National Academy of Sciences, the Nuclear Regulatory Commission, and the Department of Energy.

Hui Zhang is a Senior Research Associate at the Project on Managing the Atom in the Belfer Center for Science and International Affairs at Harvard University’s John F. Kennedy School of Government. Dr. Zhang is leading a research initiative on China’s nuclear policies for the Project on Managing the Atom in the Kennedy School of Government. His researches include verification techniques of nuclear arms control, the control of fissile material, nuclear terrorism, China’s nuclear policy, nuclear safeguards and non-proliferation, and policies of nuclear fuel cycle and reprocessing.
