

## 1925 제네바 의정서

My delegation has voted in favor of draft resolution A/C.1/57/L.9 entitled, "Measures to uphold the authority of the 1925 Geneva Protocol." This is a departure from our previous position of abstention.

My delegation is pleased to state that the Republic of Korea withdrew its reservations with respect to biological weapons in the Protocol, although, due to the security situation on the Korean Peninsula, my government still maintains its reservations regarding chemical weapons.
