CHINA

45 tests total

UNITED KINGDOM

45 tests total

FRANCE

210 tests total

NUCLEAR WEAPON CAPABLE STATES:

ISRAEL

not known

INDIA

6 tests

PAKISTAN

6 tests

NOTE: while there are reportedly a number of other countries pursuing nuclear weapon programmes, to date there is insufficient evidence to conclude that any countries other than those listed here have fulfilled this goal.

* refer to handouts on nuclear weapons and nuclear testing in the Reaching Critical Will "Talking Nukes" education kit for further details and sources for these figures.
